PENTATHLON GB EVENTS – SCHOOLS LASER RUN.

WHAT IS A SCHOOLS LASER RUN, AND HOW DO I RUN A SCHOOLS LASER RUN EVENT?

What is a Schools Laser Run?

A Schools Laser Run is an event that combines two of the Pentathlon family of sports – Shooting and Running. The shoot and the run elements are participated in together in the form of a relay. The distances run and the number of times an athlete takes part in their shooting elements are determined by the age of the athletes. The final placings are determined by the positions of the athletes across the finish line at the end of the Schools Laser Run race.

Event Running Plan

When your entries have closed, you can download the entries list from Sport:80 so you can start to create and populate your start lists and heat lists. To download your entries go to your event on the Event Admin tab on the left-hand side of the page. Click on your event and go to the "Reports" page. Click on the "Download" button for the Members Entries report to download an excel spreadsheet containing all the details from the entered athletes.

From this spreadsheet, you will be able to filter the columns so you have the data required for your event. From here you will be able to filter by age group so you can populate your start and heat lists.

Once you have downloaded this spreadsheet, you can copy and paste the entrants into the scoring sheet ahead of inputting the results.

For individuals, U19, Junior & Senior athletes will start to run 1 lap without shooting and then will run 4 laps of normal Laser Run (running/shooting). For relays, U19, Junior & Senior athletes will start to run 1 lap without shooting and then will run 2 laps of normal Laser Run (running/shooting).

Using a laser pistol, athletes shoot at their designated laser target as many times as it takes to register 5 successful hits. Each successful hit is represented by a green light. After 5 successful hits or 50 seconds (whichever comes first), runners can leave the range and begin their second run before returning to the same range, shooting bay and pistol for their next shoot. After their final shoot, competitors complete their last running loop before crossing the finish line. Final positions are decided by times achieved, therefore the athlete with the lowest time is the winner; second place goes to the second lowest time etc.

The number of run/shoot sequences is below:

3.1. Individual Competition:

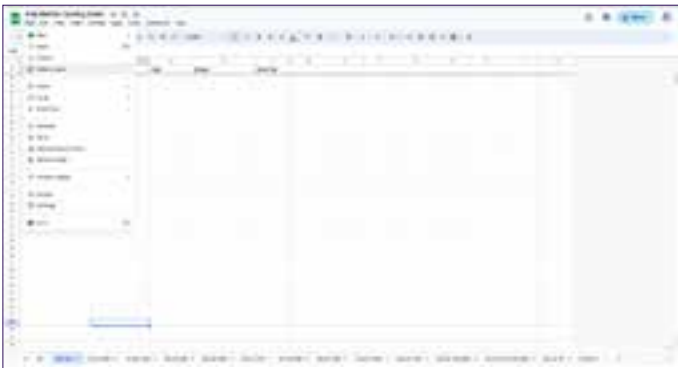

Class	Running Sequences	Total Distance	Shooting Sequences	Distance to target
Year 3	2 × 200m	400m	2 × 5 green lights	3m (two hands optional)
Year 4	2 × 200m	400m	2 × 5 green lights	3m (two hands optional)
Year 5	2 × 400m	800m	2 × 5 green lights	5m (two hands optional)
